

South African Environmental Observation Network (SAEON), Egagasini Node for Marine Offshore Systems

Nicole du Plessis obtained her Honours in Ocean and Atmospheric Science at the University of Cape Town. She started with the Groen Sebenza Programme in 2013 at the Wildlife and Environment Society of South Africa (WESSA). As part of the internship she worked as the project assistant at the Whale Coast Cetacean Project researching cetacean behaviour and habitat use in Gansbaai. She then continued her internship at the City of Cape Town's Sport, Recreation and Amenities Department focusing on coastal management. As part of her internship she worked on the Blue Flag South Africa Programme, she was the secretariat of the Simon's Town Penguin Advisory Committee and a mentor for the Youth Environmental Services (YES) Programme.

She is currently the Project Officer for the South African Marine Research and Exploration Forum (SAMREF) as well as the Coordinator for IORA-SA.
